ON THE RECORD

Accent-reduction class offered

Stephanie Baccus
Copy editor

Speaking English can be difficult when a student hasn't been surrounded by it since birth. Often, language is a barrier to communication. But sometimes, even when it's not, even a heavy accent may make things difficult.

The Herndon Speech-Language-Hearing Clinic will present an accent reduction program for international students and faculty who would like to improve their oral English skills. The clinic offers services to individuals who need speech and language therapy and evaluation.

Michelle Ross, assistant coordinator, said this is the third semester for the program, but from past experience she expects approximately 25 students.

"The program is designed for students and faculty who need precise verbal skills," Ross said. "It gives them the oral interaction that is so important."

Ross, a graduate student, from Aurora, Colo., said there are many advantages to attending the class. One is that "it gives people a chance to meet other students who have probably experienced the same problems in communication before."

"It's a completely oral based class, so there's not a lot of writing," she said.

People take the course for a variety of reasons, Ross said.

"From previous semesters, I know many of the students were planning on using English in their native countries, to get high-paying jobs there, so there are academic and professional uses for these skills," Ross said.

Students can obtain an information and sign up sheet at the clinic, in Malloy 201. Sheets need to be returned to the same place by 4 p.m. Wednesday, Sept. 1. There is a textbook available for the class.

For more information, contact Ross, Marsha Bannister, coordinator of the clinic, or Lisa Brunel, assistant coordinator.

Gender Equity implemented

Rebecca Lofton
Copy editor

The Gender Equity program, which caused heated and prolonged debates last year has been decided upon and implemented according to Hammond's specifications.

As it now stands, \$75 will be tacked on to student tuition for the 1994 fiscal year. An additional \$50 will be added to tuition for the 1995 fiscal year and a final \$25 will be added on to the first two increases for the 1995 fiscal year, according to John Rziha, Tampa junior and Student Government Association senator.

The proposal of raised tuition in an attempt to bring about gender equity between the men's and women's athletic programs was a sore point for many students last year.

A poll was conducted in the University Leader to give the student body a chance to respond. The student body voted against the idea.

Student Government deliberated over the idea for many months and, in the end, could not come to an agreement.

"We ended up not passing anything, because we didn't come to a consensus," Rziha said.

Hammond later mandated the raise in a deliberate attempt to bring about equality for the women's athletic programs.

SGA has set up a board and will appoint senators to it to police the athletic departments spending as they reap the benefits of the tuition increase, Rziha said.

Tom Mahon, head coach for the women's basketball team said, "I'm elated and excited that our women will have the same scholarship opportunities as their male counterparts have had. It's a step in the right direction."

"At the same time, I also empathize with the student population. Anytime you have to dig in your pocket, it can be frustrating."

Mahon feels the exposure will pay off in the long run.

Rziha hopes the money will go towards the cause for which it was created.

He said, "I feel the outlay on the student's money was a fled to the Athletic Fund for gender equity and I feel very much in favor of raising gender equity in FHSU athletics."

Professor presents abstract in Israel

Crickett Reese
Staff writer

Harry M. Teitelbaum, director of the research program in Israel, presented his abstract at the 1993 Annual Meeting of the American Association of Jewish Studies, held at the University of Wisconsin-Madison.

Teitelbaum presented his abstract on the topic of "The Jewish Diaspora in the United States: A Historical and Cultural Perspective." He discussed the role of the Jewish community in the United States and the impact of the Holocaust on the Jewish population.

Teitelbaum also presented his abstract on the topic of "The Jewish Diaspora in the United States: A Historical and Cultural Perspective." He discussed the role of the Jewish community in the United States and the impact of the Holocaust on the Jewish population.

Parking a greater problem this year

Sundi Fairchild
Staff writer

There has always been a problem with the parking at Fort Hays State. Very little is available, this year, there is even less.

Parking has been reduced at FHSU due to construction on the new physical science building. One third of the parking spots in the Malloy parking lot have been eliminated by the construction work.

Many students have found this to be an inconvenience. Not making it to class on time is the biggest complaint. Many non-traditional students, coming from work to class, have had to park off campus and walk.

Students are not the only people experiencing problems parking. Jennie Straight, instructor of communications, has had problems parking every day.

"I don't know why I purchase a faculty parking permit, because I have yet to park in a faculty parking space. It is basically a hunting license," Straight said.

Sid Carlie, university police chief, said he was impressed with how well the students have been handling the situation. "It could be worse," he said. "The students are upset about it, but they are handling it in stride."

Not much can be done to help relieve the parking situation until the construction is completed. Parking in the overflow parking lots at Gross Memorial is suggested by Carlie.

The strongest suggestion for students and teachers is to show up earlier and be patient, Carlie said. Carlie also asks that people park at the lot and walk to class.

The situation will last until the construction is completed.

"We also ask that people be alert and watch for people. There is a lot of traffic and that can lead to accidents," Carlie said.

"If everyone works together and stays patient, then things should run smoothly," Carlie said.

Mark G. Smith/University Leader

Parking on the Fort Hays State campus has always been a problem. Parking behind Malloy Hall has been reduced this year as a result of construction on the new physical science building.

Campus security 24-hour phones ready to be set up

Upendra Sabat
Staff writer

Fort Hays State is going to set up emergency telephones throughout the campus for the safety of the students.

Teron Jones, director of physical plant, said there will be five telephones set up within a month to provide a means for students to call for help.

Jones said the telephones will be set up in the physical plant building, the center of the quad, the student union, and the physical plant building.

Jones said the telephones will be set up in the physical plant building, the center of the quad, the student union, and the physical plant building.

Editorial

Involvement is beneficial

Did you know there are over 70 different groups and organizations available for students here at Fort Hays State?

In fact, if one includes the religious and social groups available, there are 94 organizations listed in the 1992-93 campus directory.

Granted, a few of these groups may no longer be active, yet some are not even on this list.

These student organizations range from any interest and are broken down into the following categories: campus-wide, departmental, honorary, religious, and social.

These organizations are the heart of FHSU. These clubs and groups provide the total learning atmosphere desirable in a college or university. Without these, the learning process would be strictly limited to the classroom, therefore eliminating the competitive edge. If every student shared the same background and the same experiences, then nothing would separate college graduates from each other.

Organizations allow a student to broaden his or her horizons; allow him or

her to become more knowledgeable in a specific field; allow him or her to become introduced to a wide range of people, talents, and skills.

Just like a university cannot function without these organizations, organizations cannot function without members.

At the beginning of the semester, many of these groups look for new members. Some may contact the student directly. However, it is difficult for an organization to know all of the students interested in its group.

If you are interested in becoming more involved and would like a challenge in your life, look around. There is definitely a group designed for your interest or your major.

Look in the campus directory for an organization's phone number, or talk to your advisor or teacher to see if they know of a group that is right for you.

It is only in your best interest to get involved in an organization. You could meet some very helpful or influential people, it looks great on a resume, and can be a lot of fun.

'Sports Illustrated' slaps RMAC football teams

Yesterday, I received my long awaited college football preview from "Sports Illustrated."

Of course, as sports editor, my first instinct was to go to the NCAA Division II section to see if Fort Hays State or any of its opponents were mentioned.

To my surprise the entire Rocky Mountain Athletic Conference was mentioned, although not directly.

The magazine ranked defending RMAC champion Western State College (Gunnison, Colo.) at No. 8.

"Great, this is good publicity for the conference," I thought, until I saw the caption beside the school.

"Unimposing conference should be a nice playoff warmup," it read.

Sure, Western dominated the conference last season going 7-0 in the RMAC and 9-2 overall (13-0 in the RMAC the last two seasons), but FHSU only suffered one loss in the conference last season and three in the last two.

Bob Gilmore
Sports editor

The RMAC may not be the toughest in the nation, but eight players made the All-America list last season including FHSU linebacker Dustin Bailey, who was on the third team.

In fact, if it would not have been for FHSU's inability to hold leads early last season the Tigers could be right up there in the preseason polls.

FHSU lost a 17-point lead to Emporia State University in the first game last season and a nine-point lead the week after to the University of Central Oklahoma (Edmond).

If those two games could have gone the other way, the Tigers would have begun 2-0 and finished 8-3.

Even in the game against Western the Tigers held a 10-0 lead at halftime before giving up 21 and 14 points in the third and fourth quarters, respectively.

If the Tigers young defense can come through and the offense matures, they will be very capable of winning the RMAC.

Chadron (Neb.) State College and New Mexico Highlands University (Las Vegas) could be surprises, also.

Chadron should have two first-team all-RMAC selections coming back, senior running back David McCarty and junior tight end Joe Planansky.

McCarty finished second in the RMAC in rushing with 1,359 yards. He also led the league in scoring with 25 touchdowns.

Meanwhile, NMHU should return two first-team selections, senior running back Thelbert Withers and senior defensive lineman Todd Reidhead.

Withers rushed for 1,621 yards,

breaking a conference record. That total also included a 333-yard effort against Fort Lewis College (Durango, Colo.).

The Cowboys will also have junior quarterback Jermaine Whitaker back.

He threw for 2,756 yards on his way to being named to the second team.

Hopefully for the Tigers, this can be good bulletin board material and give them the extra motivation to win the RMAC.

Anyway we'll find out Saturday as the Tigers open at home against ESU.

Carl Iverson, Western head football coach, cannot be to happy to see the slap in the face since such bad publicity seems to make mediocre teams play a couple of levels higher.

As for the rest of SI's Top 25, Pittsburg State University is once again picked to win it all, but the Gorillas will have to get past No. 2 North Dakota State (Fargo) if they want to keep the spot.

Communication degree deserves respect

Listening to the words of a teacher, I have often heard that the communication degree is not a real degree.

So, I have often heard that I have to be a "real" person to be a communication major. I feel that this is a very unfair statement. I feel that communication is a very important degree.

What I am proud of is that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

Tammy Brooks
Letter writer

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

because, in my opinion, it is not a real degree. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

I am proud of the fact that I am a communication major. I am proud of the fact that I am a communication major.

the knowledgeable in so many different fields such as politics, economics, art, English, business, etc. I need to be able to speak with and relate to as many people as I can.

Just to me, communication is people learning to work with, relate to, understand how and why they do the things they do.

I communicate with people every day and in everything I do. My major simply teaches me how to communicate more effectively.

Communication is not the only major, but others such as physical education, music, etc., that have received a negative image. Students in these majors work hard too, and deserve respect like everybody else.

The next time you hear someone say "major is communication, think before you criticize."

How important is communication in your life? Have you ever messed up an assignment or a relationship because of poor communication?

It may be more important than you think.

Communication is important. I need to be able to speak with and relate to as many people as I can.

Just to me, communication is people learning to work with, relate to, understand how and why they do the things they do.

Campus Briefs

The University Leader

Page 3

FHSU alum to perform in Gallery Series

English Club meeting

The English Club is meeting at 7 p.m. Thursday, Sept. 2 at the Protestant Campus Center, 6th and Elm street. Secretary and treasurer will be elected.

WKGLS meetings

Western Kansas Gay & Lesbian Service will be having weekly meetings every Wednesday at 7 p.m. at the Memorial Union. Call 628-5514 for room location.

Resume' workshop

Resume' workshops will be held at 3 p.m. Wednesday, Sept. 8, and at 7 p.m. Thursday, Sept. 9, in the Memorial Union Black and Gold Room.

Career exploration

The annual Career Exploration and Internship Day will be held on Wednesday, Sept. 15. Contact the Career Development and Placement Office in Sheridan 214 or call 628-4260 for more information.

Mock Interview Day

Interview sign-ups for Mock Interview Day will begin 8 a.m. Tuesday, Aug. 31, in Sheridan 214. Schedules remain open as long as time slots are available. Mock Interview Day will be Thursday, Sept. 16. Those with questions call 628-4477.

Library hours

Forsyth Library will be open from 8 a.m. to 4:30 p.m. on Friday, Sept. 3. The library will be closed Saturday, Sunday and Monday, Sept. 4-6. The library will resume regular hours on Tuesday, Sept. 7.

Comprehensive exams

The final date to sign up for Fall 1993 comprehensive examinations is Oct. 15.

Please contact the graduate school in Picken 202, or call 628-4237.

Players meeting

Fort Hays State Players' organizational meeting will be 4 p.m. Wednesday, Sept. 1 at the Felten-Start Theatre, Malloy 100. Anyone interested may attend.

Pizza party

The Accounting Club membership drive/pizza party, sponsored by KOCH Industries of Wichita, will be 6 p.m. Aug. 31 at Augustino's Pizza, 2405 Vine.

Accounting Club is open to all business majors and provides opportunities to learn about the accounting and business environment.

The membership drive/pizza party is free to Accounting Club members and prospective members.

For more information contact Leonard Robinson at 625-7674.

Free literature

The literary magazine, "Lunes: A Journal of the Arts," is available free for students. Additional copies are available for students for \$5.

Block & Bridle

All majors are welcome to a Block & Bridle meeting 7:30 p.m. Wednesday, in the Trails Room in Memorial Union. Call 625-6219 for information.

Collegiate Republicans

The first meeting will be 5:15 p.m. Wednesday, in the Memorial Union lounge. Any members and prospective members are welcome.

Amy Krob

Entertainment reporter

After graduation the last thing a person expects is to come back to their alma mater. Mark Selby is, but not to study, just to entertain.

Born in Oklahoma, Selby graduated from Fort Hays State with an honors degree in classical guitar and music composition and spent one year as a graduate teaching assistant.

Selby released his first solo album *One Way Ticket* in 1984 and began a series of tours.

"When I first got here, Martin Shapiro, over in the music department, told me about this young graduate that would be good to have play here [at the Backdoor]. I dodged the issue for awhile, until I heard Mark perform and realized that we did have a very fine talent here," J.B. Dent, director of student activities, said.

"We like to assist our graduates.

There's usually a built-in audience for them. We started on that pattern and have been very happy ever since then. Mark's toured a lot of colleges besides ours," Dent said.

"The first time he performed here was in '84. He's probably performed here for the last seven or eight years," Dent said.

In 1988, Selby performed for a national TV audience on The Nashville Network and in January he began performing with the back-up band group, the Sluggers.

In early 1990, Selby and the Sluggers cut an album, *Wheatfield Boogie*, which featured ten new songs.

"Since late spring he's been in Nashville pushing his name and trying to get someone to do his songs," Dent said.

Mark continues to perform solo concerts and Artist in Residence programs throughout Kansas as part of the Kansas Arts Commission touring

program.

Martin Shapiro, professor of music, said, "He wanted to study classical guitar. I taught him guitar and music history. He was absolutely first rate, one of those students who was somewhere between an A and an A plus. We performed duos together and Mark was always right up there with me," Shapiro said.

This afternoon Selby will be holding a workshop at 2:30 in Malloy 126. It is open to the public. The workshop is entitled "How to get started," and will address the topic of breaking in to the music business and how to survive once you're in.

Selby's performances will be tonight and tomorrow night at the Backdoor, Custer Hall. The concert starts at 8 p.m. each night and all Gallery Series shows are free to FHSU students. Tickets for faculty and staff are \$3 and the general public is \$4.

Golf meeting set

Any student with a handicap of seven or less interested in Fort Hays State varsity golf is invited to meet at 6:30 p.m. tonight in Cunningham 144.

For more information, contact Tom Johansen at 628-5867.

Frisbee® golf sign-up

The deadline for those wishing to participate in intramural frisbee golf is Thursday. Competition will be the same day. Also, the deadline for those interested in Hula Hoop® golf is Tuesday.

Competition is also scheduled for Tuesday.

For more information call 628-4373 or 628-4369 or stop by the intramural office in Cunningham 128.

Lark's Park to receive facelift next month

Bob Gilmore
Sports editor

Lewis Field is not the only stadium being renovated this year.

Beginning in mid-September, Lark's Park will also be remodeled.

The field, located on the 200 block of East Fourth Street, will have artificial turf put on the infield and blue grass planted in the outfield. The press box will also be enlarged enough to accommodate two radio stations. Head Baseball Coach Curtis Hammeke said.

The reason for needing renovations is much the same as Lewis Field. Too many teams play on the field to keep natural grass up to par.

"If you're unable to maintain it properly, it makes it tough to keep it not only nice, but actually safe and playable," Hammeke said.

"The third base area got to the point where it was an adventure on every

ball hit that way."

The field is played on from March through the summer by the Tigers, Thomas More Prep-Marian, Hays High, the Hays Legion teams and the Hays Larks, the city's semi-pro team.

"It has gotten to the point, once spring starts, there's a game there basically every day."

"That, combined with the climate we have here, doesn't provide a very good opportunity to keep the playing surface in the type of condition we'd like to keep it."

"This will provide us with a more adequate playing surface, a safer playing surface, on a day-to-day basis. It will also allow us to avoid a few more rain outs," he said.

Last season, the Tigers had 12 games cancelled due to the weather or poor field conditions.

Hammeke said the city had two choices to make, either the artificial

turf for Lark's Park, or put lighting on another field, such as at Hays High.

"One of those two options would have taken some strain off the park. Basically, we probably went the more

If you're unable to maintain it properly, it makes it tough to keep it not only nice, but actually safe and playable.

• Curtis Hammeke

economical route," Hammeke said.

The cost of the turf and new outfield grass is estimated at \$104,000, while Hammeke said a new lighting system might cost in the \$150,000 range.

Hammeke said the time was right for the remodeling since Southwest

Recreation Industries Inc. was already in town working on Lewis Field.

"We really thought we had to seize the opportunity while their was already a company coming to town to do the football stadium. We kind of piggy-backed on that, but we really felt like this was an opportunity we couldn't afford to let get past us, because it might not come up again for quite some time," he said.

The new park will make it possible for the city to play host to such events as high school state tournaments and college regional playoffs, which would also be an economic boost to the city.

Fund raising began last fall. Hammeke said they asked for donors to donate a certain amount of money annually over a 10-year period.

"By doing it in that manner, it's not such a lump sum all at once. Broken down over 10 years it's easier for most individuals to handle," he said.

The biggest contributor to the cause is YUASA Exide, 1 Exide Rd., Hammeke said.

"They were very instrumental in making all of this possible. Without them, certainly, this would not have gotten off the ground as quickly as it did," he said.

The city of Hays also had a part in getting the project going. It will budget money over the next 10 years to help pay off the renovations.

"We're going out and making these things happen, but without their cooperation it wouldn't be possible," he said.

According to Hammeke, Lark's Park's turf will differ from Lewis Field's in many ways.

Lewis Field has more padding and drains through crushed rock under the turf. Lark's Park will be sloped to allow for drainage.

Volleyball to begin season in tough NCAA II South-Central Region

Kristin Holmes
Staff Writer

The Fort Hays State volleyball team has had to make many adjustments this season. The program switched

from the NAIA division to the NCAA division II bracket two seasons ago, and is still trying to work out the changes.

"There are many differences between NCAA Division II and NAIA. The South Central Region, which we are a part of, is the second largest region in Division II. It has 35 teams including seven states. Those states are Kansas, Colorado, Texas, New Mexico, Arkansas, and Missouri," Jody Wise, head volleyball coach, said.

Within the South Central Region there are four conferences. The Rocky

Mountain Athletic Conference (RMAC), which Fort Hays State is a part of, the LoneStar Conference, the MidAmerica Conference, and the Colorado Athletic Conference.

"This division (NCAA II) and these conferences are stronger than NAIA and their conferences," Wise said. "Only five teams out of the 35 in the region can qualify for post-season play," she said.

"Not only are they good, but four teams out of the region are in the top 12 in the nation," Wise said. "Two of those teams are Central Missouri and Metro State out of Denver, which we play this season."

"It is good to have such high caliber teams to play. They have definitely been learning experiences," Wise said.

Wise also said there is more traveling in the team's schedule and not as many games during the week.

"We have more weekend tournaments because we have to travel further. We can't just run down to Tabor, play a game, and come back home," Wise said. "We will only play about 40-45 matches in Division II compared to 60-65 matches in NAIA."

Wise said it was a headache trying to schedule all the different teams in the old conference.

"It is just not worth it to schedule games during the week. It is a waste of money and is just not practical. Because of this, scheduling all the games has not been easy," she said.

Because of the move to NCAA Division II, Wise hopes she will have the

funds next year to do some more recruiting. Last year, when the switch was made, the funds had already been divided up, and it was too late to get any more.

"In this level of play, you have to get high caliber players to get anywhere in post-season play. I'm not saying that our players aren't good, but I hope to get even more than we have now, especially since some of the best volleyball teams in the nation are in our division," Wise said.

Statistically in NCAA division II, Wise has the fifth most career wins with 521, and is one of the youngest coaches in the division. Wise says she is excited about the season and is confident the team will do well in its second year at NCAA Division II.
